

A3 T-shirt Printing Machine DTG & DTF Printer**\$2500-2900**

The A3 Dual-System DTG & DTF Printer is a versatile, high-performance solution for businesses seeking to streamline their garment and textile printing operations. This multifunction printer supports both Direct-to-Garment (DTG) and Direct-to-Film (DTF) printing, providing flexible options for custom T-shirts, clothing, and a wide range of textile products.

Designed for full automatic control, this printer efficiently manages both white and color ink printing, offering the capability to print white and color inks simultaneously or separately, depending on the specific requirements of each job. The DTG system enables direct printing onto fabrics, delivering exceptional color vibrancy and fine detail for intricate designs, logos, and artwork. With the DTF functionality, you can print on transfer films and heat-press them onto garments, expanding your printing capabilities to include a variety of fabric types and materials.

Ideal for small businesses and large manufacturers alike, the A3 Dual-System Printer is engineered for high-quality, reliable printing, whether you are producing customized apparel, promotional items, or creating bespoke textiles. With its dual-system design, it's the perfect solution for businesses that want to take full advantage of both DTG and DTF technologies in one machine, offering greater flexibility, efficiency, and cost savings.
