

**Economical A4 Multifunction LED UV Printer****\$1200-1500**

Economical A4 Multifunction LED UV Printer – Affordable Custom Printing Solution

The Economical A4 Multifunction LED UV Printer is the perfect solution for businesses seeking high-quality, cost-effective printing on a variety of materials. Compact and versatile, this printer is designed to handle a wide range of applications, from custom gifts and promotional products to unique merchandise. It allows for precise printing on flat and rigid surfaces such as metal, glass, plastic, wood, acrylic, and more, all with vibrant colors and sharp details.

Utilizing advanced LED UV technology, this printer cures ink instantly, producing durable prints that are resistant to fading, scratches, and wear. This makes it ideal for businesses that require both durability and aesthetic appeal in their printed products. The printer's ability to print directly onto a wide range of surfaces provides flexibility for creating custom items like phone cases, signage, photo frames, and promotional materials, all with the same high-quality results.

With user-friendly features and an economical price point, the Economical A4 Multifunction LED UV Printer is a great choice for small to medium-sized businesses looking to expand their product offerings without a significant investment. Its efficient design allows for smooth, high-quality printing with minimal setup time, making it the ideal entry-level solution for those venturing into the world of UV printing.

Unlock new creative possibilities and grow your business with the Economical A4 Multifunction LED UV Printer—affordable, reliable, and ready to meet all your custom printing needs.

The Advantages:

1. UV Printer Can print white color,for there have white uv ink,but if you use eco solvent ink with flatbed printer,there are no white ink,so flatbed printer can't print white color(except when we use textile ink and print on textile,for there have white textile ink)
2. UV Printer can print on any materials directly without coating,no need pretreatment,but for flatbed printer,we need spray coating before printing for almost materials,or the image will be removed very easy by scratch
3. UV Printer can print out image with Embossed Effect,but flatbed printer can't
4. After Printing,uv ink dry immediately,but flatbed printer can't

Details:

Model Number:F33U4

Ink Type:LED UV-Ink

Printer Head:EPSON R290/330 Series Printer Head,or advanced L805 head

Ink Color:C M Y K W W

Print Size:16\*30CM

Print Thickness:0-50MM

Advantage:Directly printing on all materials,no need coating,also print white as well

Print Technology:Non-touch piezoelectric type inkjet printing

Protection:Build with max height position,which will help us to control the height

Up/Down:Adjust by knob,easy for operation and not easy to broken the printer head

Print Speed:A4 size Borderless Photo: As fast as 163 sec

Print Weight:0-15KG

Ink System:CISS System,Easy for refilling ink

Tray:Metal Tray

Working Condition:Temperature:20°C-30°C,Humidity 40%-70%

Print Software: PhotoPrint,Acro RIP(Windows 2000,Windows XP,Win 7/8/10)

Connection:USB2.0 Port

Power Require:110-220V

Image Format:TIFF(RGB&CMYK),BMP,PDF,EPS,JPEG,JPG Etc.

Computer Sys:Windows XP,Windows 2000/2003/7/8/10

Printer Weight:26kg(32kg with package)

Printer Size:650\*470\*430mm(with package 780\*580\*550mm)
