Speaking Flower Printer $680-1100

Speaking Flower Printer - Interactive Photo Printing & Voice Message Gift Solution

The Speaking Flower Printer is an innovative gift printing system that combines high-quality photo printing with voice recording technology, creating unforgettable personalized gifts. This unique device prints photos directly onto flower petals, greeting cards, or special paper while embedding a custom voice message—perfect for weddings, anniversaries, birthdays, and romantic occasions.

KEY FEATURES:

✔Photo Printing on Flowers & Paper

High-resolution printing (up to 5760×1440 dpi) for vivid, detailed images

Compatible with fresh flowers, dried petals, and specialty gift paper

Fast printing process (within 30 seconds per image)

✔Voice Recording & Playback

Built-in microphone for recording personalized messages (up to 60 seconds)

NFC or QR code-enabled playback—recipients can scan to hear the message

Re-recordable function for reusable gift options

✔User-Friendly Operation

Touchscreen interface for easy photo & voice editing

Wireless connectivity (Wi-Fi/Bluetooth) for direct smartphone printing

Supports multiple image formats (JPEG, PNG, etc.)

✔ Wide Applications

Wedding proposals & anniversary gifts – Print photos on roses with a love message

Birthday surprises – Customize flowers with personal photos & wishes

Memorial keepsakes – Preserve memories with printed flowers & voice recordings

✔ Safe & Eco-Friendly

Uses non-toxic, biodegradable ink for flower printing

Low power consumption with auto-sleep mode

WHY CHOOSE THE SPEAKING FLOWER PRINTER?
