

4 Cups Coffee Printer Selfie Photo Food Printer

\$980-1200

4-Cups Coffee Printer - Turn Selfies into Edible Art!

Impress customers and elevate your café, restaurant, or event business with the 4-Cups Coffee Printer, a cutting-edge food printer that transforms coffee, milk tea, and other beverages into personalized works of art. Simply upload any photo, logo, or design, and watch as it's printed directly onto the foam or cream surface—perfect for selfies, branding, or creative garnishes!

Key Features:

- ✓ High-Resolution Edible Printing – Uses food-grade ink to print vivid, detailed images (up to 5760x1440 dpi) on coffee, milk foam, cakes, and more.
- ✓ Quick & Easy Operation – User-friendly touchscreen interface; prints in just 20-30 seconds per cup with no manual skill required.
- ✓ Multi-Cup Efficiency – Prints on 4 cups simultaneously, ideal for busy shops or events needing high-volume customization.
- ✓ Versatile Compatibility – Works with latte, cappuccino, bubble tea, desserts, and even beer foam (adjustable print height: 0-50mm).
- ✓ Safe & Hygienic – FDA-certified edible ink (black/color options) and easy-clean design for food safety compliance.

Perfect for cafés, bakeries, weddings, or promotions, this coffee printer turns every drink into a memorable experience. Boost your brand visibility and customer engagement with edible art—straight from the printer!
